

SETEX:

SETEX is string command which is used to set the value for a specific key with an expiry time.

SYNTAX:

SETEX KEY SECONDS VALUES

EXAMPLE:

```
D:\Redis\redis-cli.exe
127.0.0.1:6379> SETEX Name 50 Maayon
OK
127.0.0.1:6379> GET Name
"Maayon"
127.0.0.1:6379> _
```

Here

KEY_1 = Name

VALUE_1 = Maayon

SECOND = 50
